Burn Policy

We plan to burn the tokens every 3 months. We will burn spare tokens only which means we won't burn your holdings.

The burn will be planned when supply is over 500,000 YUKI on each chain.

Each burn will burn no more than 10.000% of the supply.

Mint Policy

We will mint tokens due to the marketing changes every 3 months. The tokens will not be added into the liquid pool when tokens are minted.

Liquid Pool Policy

We will add tokens into the pool when the price is too low.

We will pull tokens out of the pool when the price is too high.

The pool changes every 3 months when the change is necessary.

Announce Policy

Before the following transaction is proceed, we will publish an announcement on official website, twitter, telegram groups:

1. Burn or mint tokens
2. Liquid pool changes
3. Contracts for Ecosystem published or updated
